

Professional Summary

Front-End Developer with hands-on experience in building responsive and user-centric websites. Proficient in **HTML, CSS, JavaScript, and React**, with a solid understanding of **UI/UX principles**. Demonstrated expertise in creating scalable, performance-optimized web interfaces through freelance projects like **paslaundry.in**. Strong team collaboration skills with a focus on cross-browser **compatibility and mobile-first design**. Adept at integrating front-end designs with dynamic content, ensuring **seamless user interaction and smooth functionality**. Committed to delivering **high-quality code** and **improving site performance** through optimization techniques.

Work Experience

- **Front-End Developer at Bringle Tech Pvt Ltd | September 2024 - Present**
- Specializing in React.js development with expertise in building dynamic, responsive, and user-friendly interfaces.
 - Leveraged **React Hooks** (useState, useEffect, useContext, etc.) and implemented advanced state management using **Redux** for seamless application functionality.
 - Worked extensively with **Node.js** for server-side development and API integration to enhance the overall user experience.
 - Optimized UI performance by up to 50% through code refactoring, component reusability, and efficient state management.
 - Delivered 3+ live projects, ensuring scalability, cross-browser compatibility, and robust application performance.
 - Proficient in modern front-end tools and technologies, including **React Router, Context API, React Testing Library, and Styled Components**.
 - Demonstrated ability to collaborate with cross-functional teams to deliver projects within deadlines and with high-quality standards.
- **Freelance Front-End Developer | [Link](#)**
- Led the development of the complete front-end for paslaundry.in, collaborating with a team to deliver a responsive and user-friendly web interface.
 - Utilized HTML, CSS, and JavaScript to create a seamless and visually appealing design that enhanced user engagement.
 - Implemented cross-browser compatibility and ensured optimal performance across different devices, resulting in a mobile-friendly and responsive experience.
 - Collaborated with backend developers to integrate the front-end design with dynamic content, ensuring smooth data flow.
 - Optimized loading times and improved page performance through clean, efficient code and image compression techniques.

Technical Skills

- Python
 - HTML
 - CSS
 - Tailwind CSS
 - JavaScript
 - React
 - SQL
 - MongoDB
- Figma
 - UI/UX
 - Photoshop
 - Sqlite
 - Nodejs
 - Team Work
 - Problem Solving
 - Communication

Projects

- **E-commerce Website | [Link](#)**
- Built a full-stack e-commerce website using **HTML, CSS, JavaScript, and React**, integrating **shopping cart functionality**, product listing, and **user authentication**.
- **Food Website | [Link](#)**
- Built a static food website using **HTML, CSS and JavaScript**, with a focus on clean design and mobile responsiveness for an optimized user experience.
- **Hotel Management Website | [Link](#)**
- Developed a hotel management system with a graphical user interface using Python, enabling efficient booking, billing, and room management operations.

Education

- B.Tech in Computer Science and Engineering** | BBSBEC, Fatehgarh Sahib,Punjab | 2024 Batch
- XII Greenways School Rurki Heeran**| CBSE
- X Greenways School Rurki Heeran**| CBSE

Achievement and Certification

- Full stack Development using Python | Ducat |
- Certificate of Training in Python with GUI
